

HSC QUALITY STATEMENT

HSC's policy is "Total Quality" and we believe that this is critical to our continuous success in the oil and natural gas industry.

HSC are committed to applying first class quality to the processes, manufacture and continuous improvement which are the foundations of our Quality Management System (QMS).

HSC operate to a formal and certified QMS that complies with the requirements of ISO 9001:2000; API Q1 8th Edition; ISO/TS 29001:2007 and API 5CT 8th Edition.

HSC are proud to state that we have:-

- A strong management commitment to quality
- Recruitment and retention of high caliber, experienced, well trained staff
- Appropriate documented processes, procedures and controls
- An ethos of continual improvement and in-house training

HSC's QMS and Quality Policy are regularly reviewed by the Quality Working Group under the guidance of the Chief Executive Officer. At each annual management review, objectives and improvements are established and a review of previous targets is undertaken.

HSC's objective is to maintain customer satisfaction together with customer confidence and to continue to supply our quality product on time throughout the world.

HSC Quality Department Manager – Mr. Leonard Magrou
